Technical data sheet

Type Y666

Y pattern strainer

Applications and special features

- Protection of pumps, valves, pressure reducing valves, against any impurity in the piping system (rust, seal fragments, foreign bodies).
- Filtration DN : 600 microns

- **Connection :** female/female, BSP thread
- **Permissible operating pressure PFA - water :** see table
- **Maximum permissible pressure PS - other mediums :** See table
- θ Mini. -10 °C
  Maxi. 175 °C
- **Mediums :** Corrosive liquids
- **International construction Standards :**
  Thread connection according to NF EN ISO 228-1

Important notice :

The indicated pressure for the different categories of fluids (L1/L2/G1/G2) is under no condition a guarantee of use. Therefore, it is essential to validate the use of products under given operating conditions.
